PROFILE

I am working toward a career at the intersection of business development and policy analysis in the space sector. I am completing a Master's in Space Studies (Space Business, Policy & Entrepreneurship) at the International Space University, building on a Bachelor's in Political Science and Business Law from the University of Maryland Global Campus. Across four internships at U.S. European Command, I supported multinational conference logistics, legislative research, and executive briefing for senior military and diplomatic leadership. My personal motto is straightforward: enable those who can do in space to be able to do in space, by removing the strategic, regulatory, and commercial barriers that keep capable organizations grounded. Raised in Europe as an American, I carry a multicultural upbringing and working fluency in German alongside native English and am comfortable operating across U.S. and European institutional cultures.

CORE COMPETENCIES & SKILLS

Event Planning & Execution • Conference & Meeting Logistics • Budget Management • Multicultural Team Coordination • Cross-Cultural Communication • Oration & Public Speaking • Business Analysis • Policy Analysis • Research & Analysis • Application Development • Microsoft Office Suite (Advanced) • AI Automation

EDUCATION

Master's in Space Studies — Space Business, Policy & Entrepreneurship

Expected 2027

International Space University (ISU) – Strasbourg, France

- **Startup Venture Project (NodeSpace)** – Led a student venture team developing a SaaS concept for ITU radiofrequency spectrum filing and spectrum-rights management; defined the value proposition and pitched the business case to an audience of 300+ investors and space professionals.
- **Research Paper, “Rhetoric vs. Reality”** – Comparative policy analysis of global space-sustainability governance frameworks across the U.S., EU, Russia, and China, assessing regulatory compliance gaps and proposing pathways toward enforceable orbital governance.
- **Deep Space Communication Roadmap** – Elected governance lead for a 20-member international team; established governance structure, stakeholder roles, and strategic planning framework from a zero baseline.
- **Relevant coursework:** Market Analytics, ESA / European Space Policy Analysis, Space Situational Awareness & Dual-Use, Space Security & Defense, AI Applications in Space.

B.S., Political Science & Business Law

2023

University of Maryland Global Campus – Stuttgart, Germany | GPA: 3.24

- **Thesis, “The Militarization and Weaponization of Outer Space”** – Assessed anti-satellite (ASAT) weapons development and the erosion of the Outer Space Treaty, analyzing legal and geopolitical implications for space security policy.
- **Focus:** International relations, defense policy, space law, business law, and geopolitical analysis.

Russian Language Immersion Program

2019

National Security Language Initiative for Youth (NSLI-Y) / U.S. Department of State – Moscow, Russia

- Competitively selected through a merit-based national process for a U.S. State Department-funded intensive language immersion program.

PROFESSIONAL EXPERIENCE

Chiefs of Mission Planner – U.S. European Command (USEUCOM), Stuttgart, Germany Feb 2024 – May 2024

- **Coordinated logistics, credentialing, and stakeholder liaison** – for a 4-star-led conference of 46+ U.S. Ambassadors and Chargés d’Affaires, aligning DoD, State Department, and NATO Allied officials, and serving as liaison across Protocol, the State Department, and Allied embassies on scheduling and program delivery.
- **Built process automation and documentation** – developed an automated mail-merge system for credentialing 46+ principals and contributed to the official After Action Report; received a 4-Star Coin from the Commander, USEUCOM.

Congressional Affairs Intern – USEUCOM Congressional Affairs, Stuttgart, Germany Jun 2023 – Oct 2023

- **Synthesized legislation into executive products** – condensed 4,000+ pages of the National Defense Authorization Act into 10+ executive briefs used to prepare a 4-star commander for congressional engagements.
- **Built a knowledge-management platform** – designed and maintained an internal website centralizing legislative analysis, adopted across legal, financial, and operational directorates.

Legal Research Intern, Staff Judge Advocate – USEUCOM SJA, Stuttgart, Germany Jul 2022 – Nov 2022

- **Centralized international agreements** – consolidated 150+ NATO/EUCOM agreements into a compliance-tracking database, saving an estimated 10–15 staff hours per week.
- **Conducted legal research** – analyzed UCMJ provisions against U.S. federal law to support active administrative legal cases.
- **Reviewed ethics compliance** – reviewed and adjudicated 25+ gift submissions to the commanding general against federal ethics thresholds.

Intern Program Coordinator, J9 – USEUCOM J9, Stuttgart, Germany Jun 2021 – Sep 2021

- **Managed program operations** – onboarding, interviews, and scheduling for 50+ interns and U.S. Army Cadets, facilitating 3–5 direct hires into EUCOM roles.
- **Coordinated interagency partnerships** – worked across DEA, USAID, and FBI to support cross-departmental collaboration and program continuity.
- **Built lasting institutional systems** – redesigned the program filing infrastructure and authored a continuity guide still in active use.

ADDITIONAL EXPERIENCE

Humanitarian Operations Volunteer – Voice360 Ukraine, Germany / Ukraine / Poland May 2021 – Sep 2025

- **Coordinated cross-border humanitarian logistics** – organized transport of 20+ Ukrainian refugees and delivery of approximately 12 tons of humanitarian aid across Ukraine and Poland over 5+ supply runs.
- **Served as a multilingual liaison (English / German)** – facilitated communication between charter operators, NGOs, drivers, and displaced persons under rapidly evolving conditions.

Program Assistant, Child & Youth Services – U.S. Army, Stuttgart, Germany Oct 2023 – Aug 2025

- **Automated reporting workflows** – built an Excel/Word mail-merge system for a 20-person team, reclaiming roughly 300 staff hours annually.
- **Standardized operations and led programming** – designed standard operating procedures and led STEM enrichment programming (rocketry, aerodynamics, chemical reactions).

HONORS, AWARDS & MEMBERSHIPS

- **Awards** – 4-Star Coin, U.S. European Command (GEN Christopher Cavoli, Commander USEUCOM / Supreme Allied Commander Europe); EUCOM Commander’s Letter of Appreciation; NSLI-Y Scholar, U.S. Department of State; Robotics Competition, 2nd Place & Special Recognition (ISU).
- **Memberships** – Space Renaissance International; Collabwith; University of Maryland Global Campus Alumni Association; The National Society of Leadership and Success.

LANGUAGES

English – Native | **German** – Intermediate (B1) | **Spanish** – Elementary (A2) | **Russian** – Beginner (A1)
